# Algorithms and bias: What lenders need to know

The algorithms that power fintech may be difficult to anticipate—and financially accountable even when alleged discrimination is unintentional.

## A beauty contest was judged by AI and the robots didn't like dark skin

The first international beauty contest decided by an algorithm has sparked controversy after the results revealed one glaring factor linking the winners

## Machine Bias

There's software used across the country to predict future criminals. And it's biased against blacks.
